2110 PHILOSOPHY OF EDUCATION

The educational program of the Rochelle Park Board of Education is designed to support and improve the intellectual, social and emotional growth of each child.

We believe that in order to be a responsible adult participating in a democratic society, each pupil should develop an understanding of his/her own abilities and limitations. A responsible citizen must be capable of making reasonable, informed decisions. A diverse society requires an appreciation of differences and the proper means of resolving conflicts. Pupils must develop positive attitudes about lifetime learning so that, as adults, they will be able to adapt to the changing expectations of future economics and work forces.

We believe that through positive educational experiences pupils can acquire the fundamental skills, knowledge and understandings which will serve as a firm foundation for future educational and/or occupational endeavors.

Adopted: 02 April 2007
